OVERVIEW

UNSW Computer Science graduate with hands-on experience building full-stack applications, backend APIs, and data-driven web tools. Experienced with TypeScript, React, Node.js/Express, PostgreSQL, Python, Laravel, and Docker. Comfortable contributing across backend, frontend, databases, testing, and the software development lifecycle, with an interest in applying emerging technologies to practical software problems.

TECHNICAL EXPERIENCE

E-Library | IGNOTUM | Software Developer | PHP, Laravel, React, PostgreSQL Jun 2026 – Jul 2026

- Enhanced search and filtering capabilities in an existing Laravel document-management platform to improve document discovery.
- Extended document metadata and classification fields used for record organisation and retrieval.
- Delivered feature changes within an existing Laravel/PostgreSQL codebase while collaborating with the development team.

Ignite Platform | PPIA UNSW Society | Backend Team Lead & Developer | [GitHub](#) Aug 2025 – Dec 2025

- Led backend development for a student and alumni networking platform, coordinating technical decisions across a 6-developer backend team.
- Designed the PostgreSQL/Supabase data model and developed REST APIs for authentication, profiles, account workflows, and directory search.
- Diagnosed and resolved API, database, and integration issues across the Express/PostgreSQL service layer during team development.

Smart Parking System | TechSoftX | Scrum Master & Frontend Developer | [GitHub](#) Jun 2025 – Aug 2025

- Coordinated sprint planning, task breakdown, and delivery for a 5-developer UNSW capstone team working with industry client TechSoftX.
- Developed Flutter interfaces for authentication, QR parking access, reservations, parking allocation, wallet/payment flows, and fee estimation.
- Integrated Flutter features with FastAPI REST endpoints and MongoDB-backed parking, reservation, and payment data.

PROJECTS

Job Fit Agent | TypeScript, Express, OpenAI API, React, Zod | [GitHub](#)

- Built an AI-powered job application assistant that analyzes job descriptions against a candidate profile and returns fit scores, matched skills, risk flags, and next-step recommendations.
- Implemented Express APIs for resume extraction, job analysis, and cover letter generation using OpenAI structured outputs and Zod validation.
- Delivered a React interface with browser persistence, Swagger/OpenAPI documentation, and API tests using mocked OpenAI responses.

Listening Pattern Lab | React, TypeScript, Recharts, Zod, Web Workers | [Live Demo](#) | [GitHub](#)

- Built a local-first Spotify listening analytics app that parses and validates JSON exports in the browser, keeping personal listening data off the server.
- Designed filterable analysis views for listening trends, top artists/tracks, repeat rate, discovery rate, sessions, and data-quality checks.
- Added public CSV dataset mode, Markdown export, deterministic insight generation, unit tests, and Playwright end-to-end coverage.

Formation Studio | JavaScript, HTML/CSS, Canvas API | [Live Demo](#) | [GitHub](#)

- Built and deployed a browser-based choreography editor for planning dance formations with timeline-based animation and synced audio/video playback.
- Designed a keyframe animation system supporting hold and morph transitions between dancer positions using interpolation logic.
- Implemented drag-and-drop canvas editing, keyboard controls, undo functionality, JSON import/export, and localStorage autosave for persistent project state.

SKILLS

- **Languages:** TypeScript, JavaScript, Python, Java, PHP, SQL
- **Frontend:** React, Flutter, HTML/CSS, Tailwind CSS
- **Backend:** Node.js, Express, Laravel, FastAPI, REST APIs
- **Databases:** PostgreSQL, Supabase, MongoDB, SQLite
- **Tools & Testing:** Docker, Git/GitHub, Swagger/OpenAPI, Playwright, Jira
- **Concepts:** API Design, Authentication, Database Design, Testing, Agile/Scrum

EDUCATION & CERTIFICATIONS

University of New South Wales (UNSW) Sydney
Bachelor of Science (Computer Science)

Aug 2022 – Sep 2025

Google Data Analytics Professional Certificate | Coursera

Jul 2026
